**DETAILED ACTION**

1. This communication is in response to applicant's amendment filed January 19, 2007. Claims 1-19 are currently pending in this case.

***Election/Restrictions***

2. The response to the requirement for election/restriction issued on December 1, 2006 is acknowledged and hereby withdrawn. The following is issued in its place.

***Election/Restrictions***

3. This application contains claims directed to the following patentably distinct species of the claimed invention:

Species A – Represented by the embodiment requiring one or more signatures only. (as in Figure 7)

Species B – Represented by the embodiment requiring additional forms of authentication. (as in Figure 9)

4. Applicants are required under 35 U.S.C. §121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claims are generic.
5. Applicants are advised that a reply to this requirement must also include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added in response to this office action and or in any future response. An argument that a claim is allowable or

Art Unit: 3621

that all claims are generic is considered nonresponsive unless accompanied by an election.

6. Upon the allowance of a generic claim, Applicants will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 C.F.R. § 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. See MPEP §809.02(a).

7. Should Applicants traverse on the ground that the species are not patentably distinct (e.g. Applicants may argue that Species A is not patentably distinct from Species B), Applicants should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. §103(a) of the other invention.

8. A telephone call was made to Gordon C. Coplein on or about April 12, 2007 to request an oral election to the above restriction requirement, but did not result in an election being made.

9. Applicants are advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 C.F.R. §1.143).

10. Applicants are reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. §1.48(b) if

one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 C.F.R. §1.48(b) and by the fee required under 37 C.F.R. §1.17(i).

11. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Cristina Owen Sherr whose telephone number is 571-272-6711. The examiner can normally be reached on 8:30-5:00 Monday through Friday.
